Event lifecycle

Event lifecycle in Arena

- Create new Event
 - Basic informations (Name, location, date, type)
 - Competition format (individual/team, single/double bracket, 1 or 2 days format, number of mats)
 - Scoresheets
- Preferences can't be changed later
 - Session type

The screenshot shows the 'Create new Event' form in the Arena application. The form is divided into three main sections: 'Basic informations', 'Competition format', and 'Scoresheets'. The 'Basic informations' section includes fields for Name, City, Country, Continent, Timezone, Start date, End date, and Event type. The 'Competition format' section includes fields for Ranking type, Tournament type, Session Type, UWW Ranking Type, Rest time, Timer direction, Number of mats, and Referees assigned to only one mat?. The 'Scoresheets' section includes a field for Copies and radio buttons for 'Datas only' and 'Bulk'. A 'Save' button is located at the bottom right of the form.

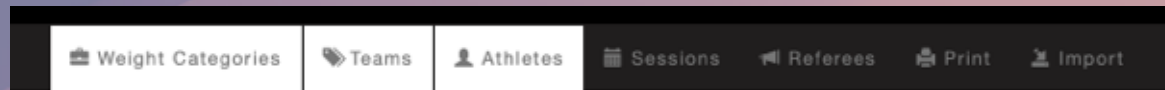

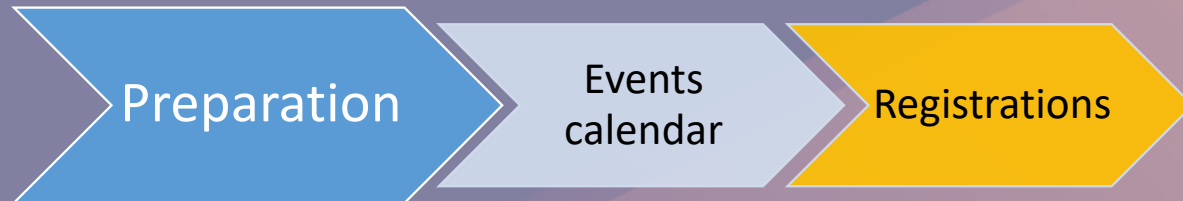

Basic informations	
Name	Senior World Championship
City	Leutanne
Country	Switzerland
Continent	World
Timezone	Europe/Zurich (+02:00)
Start date	2020. 05. 26.
End date	2020. 05. 28.
Event type	Continental Championships

Competition format	
Ranking type	Individual
Tournament type	singlebracket
Session Type	1 day per weight event
UWW Ranking Type	
Rest time	20
Timer direction	Down
Number of mats	2
Referees assigned to only one mat ?	Yes

Scoresheets	
Copies	2
<input type="radio"/> Datas only	
<input type="radio"/> Bulk	

Save

Event lifecycle in Arena

- Associate weight categories to the event
- Add athletes – Prior to the Event (pre-register)
 - Manual
 - Pre-register teams (optional)
 - Team name lookup
 - Person lookup
 - Add missing people
 - Import from Excel table
- Print Entry List for weigh-in

A screenshot of the 'Add Athlete' form in the Arena software. The form is green and contains the following fields and buttons:

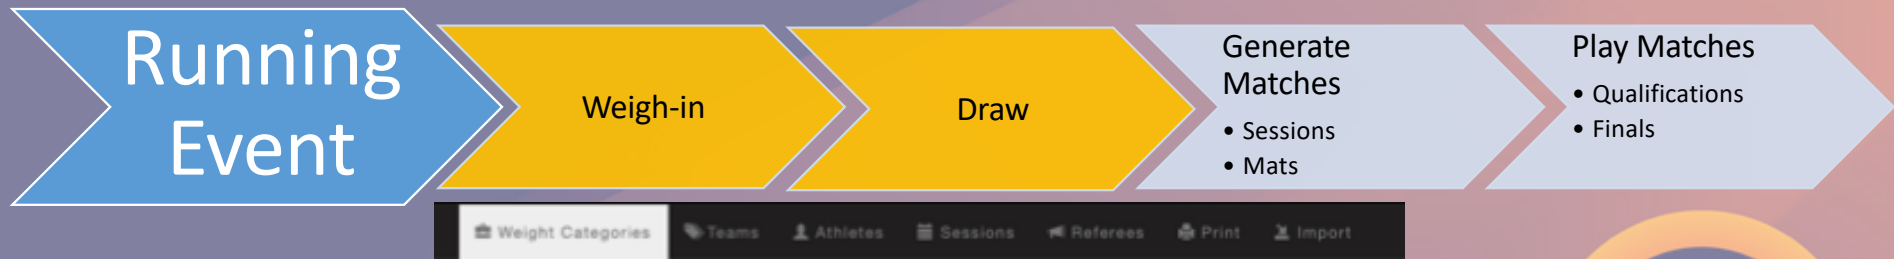

- + Add Athlete** (header)
- Search/Add a Team** (label)
- Input field with placeholder text: *ex: FRA or France*
- Search/Add a Person** (label)
- Input field with placeholder text: *ex: Firstname FAMILYNAME*
- Weight Category** (label)
- Input field for weight category
- + Add** (button)

Event lifecycle in Arena

- Weigh-in and Draw are separate or organized together
- Do it on paper or store draw numbers immediately
 - Draw using numbered disks, draw machine, “Autodraw” - random draw by Arena (Arena generated random numbers, Blockchain)
- Do not set draw numbers for athletes not passed weigh-in or medical check
- Use Import Athletes with Draw Numbers

Event lifecycle in Arena

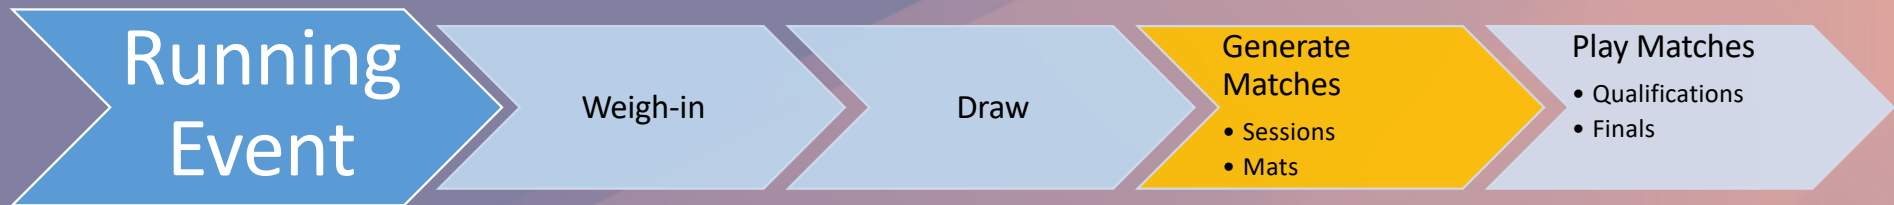

- **Only Athletes with Draw number are added to brackets**
- Chose mat assignment
- Coose Session day
- Generate matches
- Reorder matches if necessary (+update match numbers)
- Review/print brackets
- Print scoresheets (Full/Bulk format)

The screenshot shows the 'Sessions' management interface. It includes a navigation bar with options: Weight Categories, Teams, Athletes, Sessions (selected), Referees, Print, and Import. The main content area has a title 'Sessions' and two buttons: 'Create matches -' and 'Update match numbers -'.

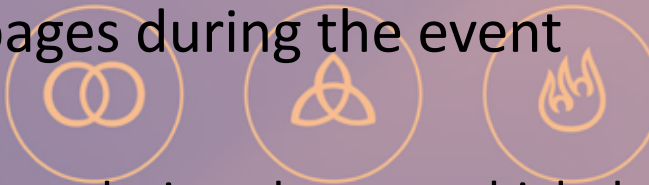

Below the buttons, there are three sections:

- Weight Categories:** A list of categories: Seniors FS - 57 kg, Seniors FS - 65 kg, Seniors FS - 74 kg, Seniors FS - 86 kg, Seniors FS - 97 kg, and Seniors FS - 125 kg.
- Mats:** A table with columns A, B, and a dropdown menu.
- Session Start on Day:** A table with columns 1, 2, and 3.

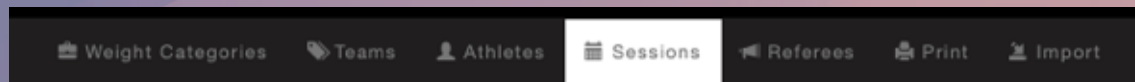

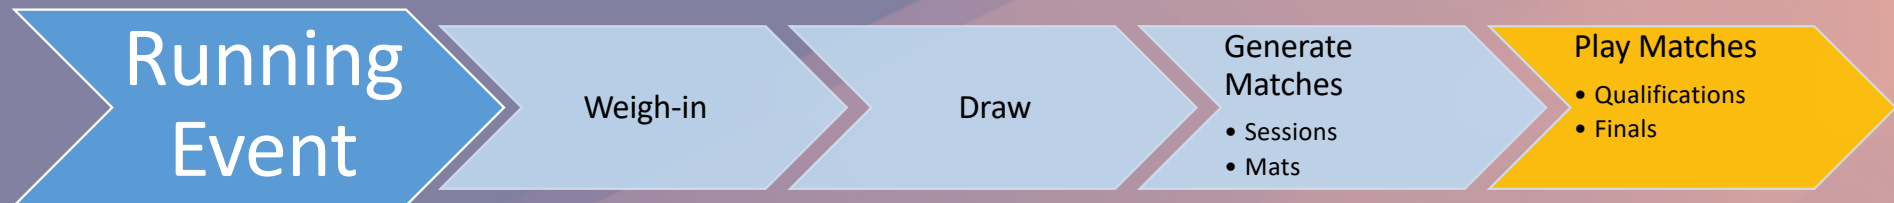

Event lifecycle in Arena

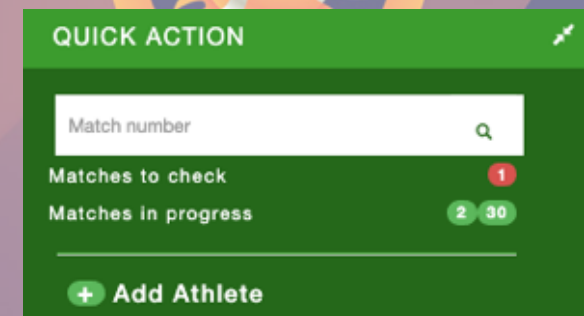

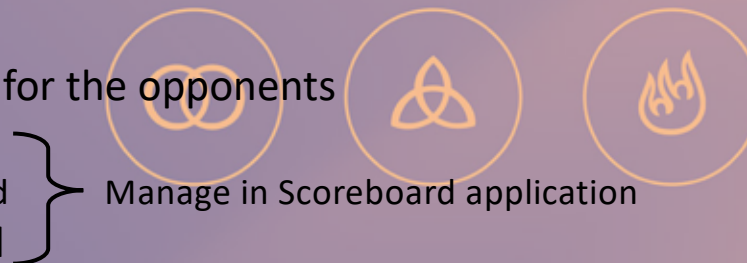

- Displaying on Venue pages during the event
- Public pages
 - Local Arena server is not designed to serve high demand access
 - Solutions: have dedicated servers, add proxy/load balancer

Event lifecycle in Arena

- Match statuses:
 - Not ready – waiting for the opponents
 - Ready to start
 - Scoresheet printed
 - Running/Completed
 - Results confirmed
- Secretariat compares scoresheet data with recorded results
 - Correct technical and/or classification points and confirm the result
 - Only confirmed (checked) matches populate winner to next match
- Follow brackets
