22. Closing of the Congress

1. Welcome words by the President of the Hungarian Wrestling Federation

Mr. Lalovic welcomes everybody. He gives the stand to Mr. Szilard Nemeth, President of the Hungarian Wrestling Federation.

Mr. Szilard welcomes all delegates to Budapest on the occasion of the Senior World Championships and thanks the Bureau Members for assigning the competition to Hungary. He wishes all an excellent 2018 edition of the world championships and pinpoints the impressive cultural events organised around the championships.

He wishes all an enriching and successful Congress.

2. Opening of the 2018 Congress by the President of UWW Mr. Nenad Lalovic

Mr. Lalovic thanks Mr. Nemeth for his speech and the hospitality of the Hungarian Federation and the Organisation Committee. He notes the large attendance at both the Congress and the competition. He reminds the audience that, furthermore, the situation of Wrestling in each country depends on its national federation and that it is first and foremost thanks to national federations that the system holds.

Mr. Lalovic calls the Congress to order.

Before proceeding the agenda further, Mr. Lalovic requires a minute of silence in memory of the victims of the terrorist attack on a wrestling club in Afghanistan.

Mr. Lalovic vouches for a material and financial assistance to be provided for the rebuilding of the club.

3. Adoption of the Congress Procedure Regulations

The *Congress Procedure Regulations* are adopted without any remark.

4. Appointment of the Congress working bodies

The Congress working bodies are appointed as follows:

| | |
|--|---|
| Writer of the Congress minutes: | Mr. Dusson, General Secretary |
| Proof-readers of the minutes: | For French: Mr. Dusson, General Secretary For English: M. Dziedzic, Vice-President |
| Election Commission: | Mrs Pellicone - Bureau Member Mrs Yaksi - Bureau Member Mr. Dusson - General Secretary Mr. Tzenov - Vice-President |
| President of the Election Commission: | Mr. Tzenov - Vice-President |

5. Approval of the minutes of the UWW Ordinary Congress in Mâcon (FRA) on 4 September 2016

The minutes of the Mâcon Congress are approved without any remark.

6. Reports by the controllers of powers

The controllers of powers have identified the National Federations attending the Congress under representation:

| | |
|----------------|-----|
| Africa | 15 |
| America | 23 |
| Asia | 28 |
| Europe | 40 |
| Oceania | 2 |
| Bureau Members | 17 |
| TOTAL : | 125 |

7. Financial report by the statutory auditors OFISA - Adoption of the 2016-2017 financial report

Given the OFISA financial report, dated 31st of May 2018, and that no comment is made, the accounts and the balance sheets for 2016 and 2017 are approved by the Congress.

8. President's report on UWW's activities during the period between the Congress in Mâcon and Budapest

A report was made available on-line via UWW's website to national federations one month before the Congress. Mr. Lalovic indicates that the report gives loads of information and that he does not want to reiterate what is presented. The report will remain at the disposal of affiliated federations until after the Congress and UWW will be available for further inquiries.

Mr. Templeman (Director of Marketing & Communication) takes the stand and delivers a presentation about commercial activities since 2016.

A renewable 4-year contract was signed with the Nike, Inc. corporation. Although it mostly consists in the provision of equipment, the impact of the association of UWW with such a brand is crucial for UWW. Another contract was signed with the Supples corporation. Supples participates actively in the development of Wrestling through the provision of equipment, notably for the *More Than Medals* training camps. And last, UWW has partnered with Taishan corporation since 2014 for mats.

The delegates are shown a video about the *More Than Medals* training camps. It not only shows the efforts put forward in terms of development but also in terms of communication and presentation of Wrestling. Mr. Templeman adds that growth is exponential on social media (Facebook, Instagram, Twitter, YouTube) and that UWW is in the top ten of IF regarding activities on these platforms.

In what concerns TV, the growth is strong: deals were signed with Eurosport, NTV and NBC and the interest from television channels in broadcasting Wrestling keeps growing.

Last, Mr. Templeman precises that the Wrestling House experience initiated in Rio will be renewed in Tokyo.

Mr. Lalovic takes this opportunity to thank the staff at UWW's Headquarters for the work accomplished. He adds that the Wrestling community has achieved huge progress during the last years. The display of Wrestling has skyrocketed since Paris 2017. Technical means such as Athena are now well in place. New digital formation platforms have been implemented. In that respect, Mr. Lalovic thanks M. Tomyama regarding his engagement for the training of Coaches and Mr. Silvestri and Mr. Errett for the training of Referees.

Regarding the Ranking System, Mr. Lalovic stresses the fact that this system must be strengthened and improved in order to avoid that the two main favorites meet in the first round.

Mr. Lalovic recalls that the International Wrestling Rules, and in particular the rules of Greco-Roman Wrestling, have been dramatically improved. He nevertheless precises that a distinction must be made between changes of rules and changes in action-attributed points.

Regarding the competition format, the issue of the athletes' health is a great concern to the IOC and UWW. The practice of swift weight-loss being disturbing and detrimental in the long term, it was deemed necessary, in consultation with the Medical Commission, to change the competition format in order to deal with this issue. Regarding the organisation and the second-day weigh-in, Mr. Lalovic indicates that competition must start later so as to allocate more time for the athletes' breakfast. Solutions will be put forward. That said, Mr. Lalovic precises that reconsidering the two weigh-ins is out of the question (the second weigh-in will take place on the second day).

Last, Mr. Lalovic encourages all national federations to be more active in the development of Wrestling and wishes for more interaction between national federations and UWW.

No comment is made. The report of activities is approved.

9. 2019 Provisional Budget

Mr. Lalovic announces that UWW aims to be, from here to 2024, completely independent from the revenues of the Olympic Games. He also reminds IFs that they must re-allocate the money they receive to the Athletes through national federations and development programs. The President adds that another objective of UWW is to move from the Group 4 of IOC funding to the Group 3.

The 2018-2019 provisional budget, made available to affiliated federations in the Congress' documents, is approved without any comment.

10. Working program for the 2019-2020 period.

Mr. Lalovic explains that in general terms, UWW's work for the last five years must be continued and that UWW and all affiliated national federations must, on a daily basis, keep themselves updated and follow on the evolutions of the surrounding world.

He stresses that the program for the forthcoming two years will be much concerned with, but not necessarily limited to, the preparation for the 2020 Tokyo Olympic Games. Given the evolutions incurred by UWW and Wrestling during the last years and the geographical situation in terms of broadcasting schedule and proximity markets (India, China etc.), the television audience will be multiplied for Tokyo.

Regarding the forthcoming Youth Olympic Games, they will take place in Senegal, a major place for African Wrestling. The Wrestling Arena has already been built and will be used for the Games.

Regarding Paris 2024, Mr. Lalovic explains that the Olympic Wrestling tournament will take place in the centre of Paris, close to the Eiffel Tower and in the temporary hall built for the duration of the *Grand Palais* renovation. When the renovation of the *Grand Palais* ends, the temporary hall will remain in place for the Games and host the Wrestling competition; that will project an excellent image of Wrestling.

Mr. Johnny Zambrano (President, Ecuador National Federation) speaks up about a technological issue. He asks the President and UWW to incite championships organisers to provide everyone in attendance with an open wi-fi connection, for a better communication and more activity on social media during events. Mr. Lalovic answers that although UWW takes due note of this suggestion, it is not always simple to obtain a connexion of sufficient quality in addition to the connexion required by IT teams for the live broadcasting of bouts on YouTube.

Mr. Lalovic also talks about the necessity to develop non-Olympic styles - such as Beach Wrestling that is on the program of the 2019 World Beach Games.

Measures must be taken about UWW's governance, and the related ASOIF's guidelines must be implemented during the forthcoming months.

Regarding anti-doping, Mr. Lalovic indicates that the efforts about this very sensitive subject - for which Wrestling is in a bad posture - shall continue. UWW signed an agreement with the International Testing Authority (ITA) to complete its anti-doping program as of 2019. All National Federations and the competitions organisers will be informed by UWW about their obligations in that matter. Mr. Lalovic insists about the role of National Federations in the formation of Wrestlers and Coaches and asks each and every one to step up efforts in this direction.

No comment is made. The program is approved.

11. Report on Refereeing

Mr. Lalovic gives the stand to Mr. Zach Errett, UWW Education Manager and Member of the Refereeing Commission.

Mr. Errett reminds the audience about the last years refereeing improvements. The level of Referees has improved for two years, thanks notably to the way Referees are trained (more group discussions and interaction, less lectures). He also indicates that the average age of referees has been lowered and that this is encouraging for the future. The number of women Referees is rising.

He speaks about the participation of Referees in the 2018 World Championships. Their number was augmented and divided into three groups, of which one took part in the whole championships and the two others in half the championships. That allows Referees to pay better attention for a shorter period.

Mr. Errett also explains that the first formation course for Referees Instructors and Coaches Instructors was set up in 2017. He insists on the fact that both groups must work together and interact on a more regular basis.

He informs the audience that a Program of Introduction to Refereeing (non-certifiable) is at the disposal of federations.

Furthermore, an education platform (UWW Academy) will shortly be set up and available to all national federations.

Last, he presents the selection criteria for Tokyo's Referees. He pinpoints that the process will be transparent and based on objective criteria. An evaluation form will be tested during the Budapest World Championships. If proven effective, its use will be applied to the 2019 events serving for the selection of Tokyo's potential referees. The selected referees must follow the IS Referees Formation Courses and participate in several competitions in 2020.

Mr. Lalovic thanks Mr. Errett for his presentation. He adds that UWW's Bureau decided, on the day before, that any refereeing-related litigious situation will be examined on the following day and that a wrongful referee shall be sanctioned in proportion to the committed act.

No comment is made. The report is approved.

12. Proposal of amendments to UWW's Constitution

Mr. Lalovic explains that the Bureau has been recently debating the issue of the terms limit of the Bureau Members and that a proposal should be made to the Congress. That said, the situation is complex, and no solution was reached.

Nevertheless, an age limit should be proposed to the next Congress. For the time being, it seems that the principle of terms limit will be applied to the Presidency, but not to Membership.

Another amendment to the Constitution is suggested, namely the addition of “Grappling” to the list of UWW-governed discipline.

No decision is taken about these subjects for the time being.

13. UWW’s Associated Styles Committee - Report and 2019 Working program

Mr. Lalovic gives the stand to Mrs Yaksi for a presentation about the Associated Styles Committee.

Mrs Yaksi describes the various developments of the Committee since its creation. She is the President of the Committee and the office is in Istanbul. She enumerates the numbers of affiliations and associations according to style and presents the rates of participation in the championships since 2016.

Mrs Yaksi also introduces the promotional aspect of these styles and the related activity on social media.

Grappling as a “self-defence” tool is put forward.

Last, a list of multisport competitions including these styles is established.

No comment is made. The report is approved.

14. Allocation of championships

Mr. Lalovic gives the stand to Mr. Dusson for the announcement of the allocation of championships for 2019-2020-2021, decided on the day before by UWW’s Executive Committee.

Without enumerating the full list of allocated championships (to be published on UWW’s website), it is mentioned that the 2021 World Championships were allocated to Oslo, Norway.

Organisers of the 2019 and 2021 World Championships are invited to give a short presentation about the organisation of these championships.

This point is informative only, and no comment is made.

15. Information about the 2020 Olympic Games in Tokyo (JPN)

Mr. Lalovic gives the stand to Mr. Rey, Director of Sports at UWW, for a presentation about the 2020 Olympic Games in Tokyo.

Information are presented about the competition hall, the competition format, the qualifying tournaments, the test events and accommodation.

All the information is available on UWW’s website.

This point is informative only, and no comment is made.

16. New contractual arrangements for UWW licensed wrestlers and consequences on the Regulations for Transfers and the organization of competitions and UWW championships

Mr. Lalovic explains that legal problems occurred following the creation of a non-official league in Germany, in which international foreign Wrestlers take part in violation of UWW's Rules and Regulations. This situation is detrimental to all involved parties (Wrestlers, National Federations, UWW).

Mr. Lalovic stresses that it is important to protect each and every one's interests and in particular the national federations' ones. That kind of league should be set up in agreement with the national federation concerned. If such non-official leagues were set up in all countries, national federations would be greatly prejudiced.

For that reason, Mr. Lalovic announces that UWW's Bureau has approved, during its Rome meeting in August 2018, the principle according to which all national federations must set up a license system at national level in order to protect their wrestlers and their competition system. He reminds the audience that this system is already in place at the international level, primarily providing wrestlers with an insurance coverage. He adds that the Bureau approved, at its meeting on the day before the Congress, the obligation for all coaches attending the field of competition to hold a UWW licence as of the 1st January 2019.

Mr. Zambrano (President, Ecuador National Federation) requires taking the stand. He indicates that the decision to press national federation to set up a national-level license system is an excellent initiative. It will allow them to strengthen their position towards public sports authorities; UWW's Regulations must be amended to make it compulsory.

Decision 1: The Congress endorses the Bureau's decision according to which UWW-members National Federations are required to set up a license system at national level. The relevant UWW's Rules and Regulations will be amended in this direction.

Decision 2: The Congress endorses the Bureau's decision to make the UWW license compulsory for all coaches as of the 1st January 2019.

17. Updates to UWW's Financial Regulations

Mr. Lalovic comments on the following proposal about the modification of organisation fees: some adjustments are proposed regarding the continental championships. Regarding the Olympic Games qualifying tournaments, Mr. Lalovic pinpoints that future organisers were consulted and that their answer was positive. He adds that these tournaments are great events and that UWW's investments, notably in terms of preparation and communication, are aligned accordingly. The raise of the fee will allow for reducing our operating expenses.

| Competition | Current Fee | Proposal |
|---|---------------------|---------------------|
| Senior Pan-American Championships | 46'000 Swiss Francs | 25'000 Swiss Francs |
| Junior Pan-American Championships | 10'000 Swiss Francs | 8'000 Swiss Francs |
| African Continental Champs (Cadet, Junior, Senior) ¹ | 7'000 Swiss Francs | 8'000 Swiss Francs |
| Oceania Continental Champs (Cadet, Junior, Senior) ¹ | 6'500 Swiss Francs | 8'000 Swiss Francs |

¹ The organisation fee must be understood as including all three age-categories, and not as per single age-category.

| | | |
|--|--------------------|----------------------|
| Olympic Games Continental Qualifying Tournaments | 1'800 Swiss Francs | 50'000 Swiss Francs |
| Olympic Games World Qualifying Tournament | 1'800 Swiss Francs | 100'000 Swiss Francs |

Decision: The Congress approves the proposals rendered in the above table.

18. New affiliations

Without any objection or remark (the UWW Constitution's requirements having been fulfilled), the Congress approves the definitive affiliation of the three following federations:

- Papua New Guinea (Oceania)
- Macao (Asia)
- Guyana (Americas)

The President asks the Secretary General if the delegates from these three new federations can participate in the rest of the Congress with full rights of vote and parole. The Secretary General confirms that there are no regulatory or statutory objection to their participation.

The right of vote and parole is thus attributed to the delegate in attendance from the Macao Federation.

19. Questions from the affiliated Federations

Mr. Lalovic notifies the delegates that two requests from affiliated federations were received. One was not in compliance with the Constitution and the other cannot be discussed by the Congress. That said, Mr. Lalovic asks the Congress if one or the other federation in attendance wishes to submit a topic for discussion.

No delegate takes the floor.

20. Election of Bureau Members

Before proceeding further into the election, Mr. Lalovic asks all delegates to put their cell phones and other photographic devices away so as to safeguard the integrity of the election. Furthermore, all delegates are requested to present themselves before the Election Commission, in case irregularities are witnessed during the election process.

The voting cards having been distributed by the Controllers of powers and the devices were distributed by UWW's staff upon presentation of the voting card, an explanatory video is projected, and a test is realised.

The candidates are introduced. As every Bureau Member is elected to represent Wrestling and not his/her country of origin, Mr. Lalovic names each candidate without mentioning his/her country of origin.

One candidate (Mrs Kane) is missing. Decision is made to maintain her candidacy.

Then, the election starts.

The results of the 1st round are:

| KARNAK, J. (SVK) | 6 | |

Six members obtained absolute majority in the 1st round.

A 2nd round is organised to fill the 7th seat, left vacant since Mr. Khadem's resignation.

Mr. Lalovic takes this opportunity to explain to the Congress the circumstances of Mr. Khadem's resignation. He reminds the audience that Mr. Khadem continues his fight against the interference in sport by the sports authorities of his country, and in particular against the orders given by these authorities to Iranian athletes not to take up competing against some countries. Mr. Khadem resigned from his position as Bureau Member to protect UWW. Mr. Lalovic asks the Congress to applaud Mr. Khadem for his fight.

No candidate withdraws from the 2nd round.
