Any referee attending such event without approval will be subject to disciplinary actions.

## Article 21 - Means of control

For the Olympic Games, World and Continental Championships, World and Continental Cups, a reference system has been drawn up and which comprises members of UWW Bureau and Refereeing Commission.

International referees who take part in competitions under UWW's control, are examined and evaluated by the UWW designated referees (as mentioned above in article 19).

The evaluation and comments are recorded and used to establish the annual classification of international referees.

## Article 22 - Consequences of infringement of the rules

The international referee subject of a complaint for infringement of the rules will receive a warning if the complaint is recognised as justified by the competent authority. If the offence is repeated, the referee will be downgraded to a lower category. However, if the offence is serious, the referee could be suspended for the duration of the competition or be immediately demoted by the UWW Executive Committee.

The international referee acting intentionally against the Fair Play under pressure or in agreement with other persons will automatically lose the title of international referee and excluded for life according the provisions of the UWW Disciplinary Regulations.

The suspension can be imposed during the competition in which the offences were reported.

The final sanction is subject of an ulterior investigation and final decision by UWW Bureau.

## Article 23 - Improvement, courses and examination

National Federations must attach particular importance to national training courses as a means of improvement for their referees. Bearing in mind provisions of article 15 above, all international referee will be examined for control or for promotion to a higher category during special examinations run by UWW Refereeing Commission during competitions indicated for this purpose in the UWW calendar.

As far as possible, such training courses and exams will take place in all continents.

## Article 24 - Information during major competitions

Independently of the training courses offered exclusively to candidates (Level I to IV courses), a course will be offered for all referees prior the competition by the assigned referee delegate.

For all major events, the assignment of referees for every match will be done randomly using a software created by the UWW, which is to be used with ARENA. In case of the use of another service provider for the results (during Games or Multi-sport events), a similar software has to be developed to fulfil this task.

In addition, a daily clinic will be conducted by the referee delegate every morning prior to the competition to review and analyse actions and situations happened in the previous day.

In a given match, the referee, mat chairman and judge cannot be of the same nationality as the competing wrestlers.
