UNITED WORLD WRESTLING

STRATEGY
2022-2026

UNITED WORLD WRESTLING
Dear friends in Wrestling,

In 2013, we embarked on a new journey for Wrestling. While our position in the Olympic programme was threatened, we, the international wrestling community, came together like never before. Our new name, United World Wrestling, that was adopted at this time, is a true legacy of this important moment in our history. We stood united, and we remain so today.

I remember clearly standing before you as your new President and promising that we would come out of that period stronger as a sport. And I truly believe that we did. We have since modernized our organisation and improved our collaboration – across all countries and all styles – to build a stronger United World Wrestling.

Now we are ready to take the next big step forward.

We all know that it takes extreme focus and commitment to become a better Wrestler. The same goes for us as an organisation. The world around us continues to change and develop, and new opportunities arise. As we continue to deliver our programmes and competitions as usual, we need to also find space to focus on capturing these opportunities.

Therefore, through consultation with you and our other stakeholders and partners around the world, we have identified five areas where we will make a special concerted and focused effort over the next four years. These are areas that may not be the most urgent for our sport, but they are certainly very important – and now is the time to make sure we capitalize on their potential.

Most importantly is that we will continue to work together in these areas so we can achieve great things at the international, regional and local level.

Now, let’s get to work!

NENAD LALOVIC

United World Wrestling President
HOW DO WE CAPTURE NEW OPPORTUNITIES?

Over the next four years, we will put additional resources - time, money and people, towards five key focus areas: Youth Engagement, Women's Wrestling, Associated Styles, Image of Wrestling, and Digital Transformation.

Each of these represent an area where there is tremendous opportunity for our sport.

HOW WERE THE FOCUS AREAS CHOSEN?

Five focus areas were chosen following a comprehensive outreach programme and deep analysis of the results. We asked questions and the Wrestling community answered. By speaking to national federations and other stakeholders, United World Wrestling was able to capture a true understanding of the key challenges and opportunities that currently exist.

WHAT IS THE TIMELINE?

Each of the focus areas and associated objectives and actions will be implemented throughout 2022 – 2026. A system to make sure efforts are being tracked and progress is being made will be implemented in the United World Wrestling administration.

We aim to develop roadmaps and provide resources from the international level that will then benefit the regional and national levels. At each level, and in each national federation, the efforts may be slightly different – but what is important is that we are all looking in the same direction. This unity and focus will make sure we take a big step forward together.

A UNITED EFFORT WILL TAKE US FORWARD

The activities for these five focus areas will mainly stem from United World Wrestling initiatives that will then help to support and activate activities at the regional and national level.

The selection of these five focus areas came from your feedback, and so we simply can’t do this alone from our office in Switzerland. We need you to stay engaged and stay focused.

Keep these five focus areas in mind in your own national federation and make them a priority.

Reach out to us to share ideas and actions you have taken (or want to take) in your country.

Write to strategy@unitedworldwrestling.org at anytime over the coming years. We look forward to hearing from you.
